OBJECTIVES: The goal of the CIS 2004 is to bring together experts from the field of cybernetics and intelligent systems to discuss on the state-of-the-art and to present new research findings and perspectives of future developments with respect to the conference themes. The CIS 2004 is organized by the IEEE SMC Singapore Chapter, and is held in together with the IEEE Conference on Robotics, Automation and Mechatronics (RAM 2004). The conference welcomes paper submissions from researchers, practitioners, and students worldwide in but not limited to the following areas:

About Singapore: Located at one of the most important crossroads of the world, Singapore is truly a place where East and West come together. Here you will find Chinese, Indian, and Malay communities living together, their long established cultures forming a unique backdrop to a clean and modern garden city. English is spoken everywhere and is the common business language of all. Few places on earth promise such a delight for the palate, with gourmet cuisine from over 30 countries.

Invited Sessions: The conference will feature invited sessions on specialized topics of interests. The invited sessions are intended to usher in, in-depth discussions in special areas relevant to the conference theme. The session organizers will coordinate the associated review process. The conference proceedings will include all papers from the invited sessions.

Paper Submission: Papers must be written in English and should describe original work. Papers should be submitted in the form *.pdf on-line to the conference website: http://cis-ram.nus.edu.sg by 30 June 2004. The length of the paper is limited to a maximum of 6 pages (A4 size, single spacing, Times Roman of font size 10, double columns format), including figures, tables and references. Upon acceptance, authors will be required to register and present their papers. Papers will be published in the conference proceedings only if at least one of the authors is officially registered.
